Chess Piece Desk Paperweight

REF: 82947

Height: 10.5 cm (4.1") Diameter: 6.3 cm (2.5")

£210

©Christopher Clarke Antiques

A rosewood Queen Chess Piece made as a paper weight.

The Queen has a good weight which would suggest that it has some lead set in under the baize. The shape follows the Staunton Pattern and it has a tactile feel to it. There are few clues to be able to date this paperweight but it is likely to be early to mid 20th Century.
