Steel Kit Bag Lock

REF: 82581

Height: 6.98 cm (2.7") Width: 11.43 cm (4.5") Depth: 0.63 cm (0.2")

£75

This Kit Bag Lock stands out for being made of steel as opposed to brass. The many we have had in the past have mostly been brass.

It has an internal lock and the top bar is shaped to dip in the middle to offer a more comfortable grip. When unlocked, the bottom bar swings to open. Circa 1900.
